To the Board of Trustees Charter Township of Oxford, Michigan

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate of all remaining fund information of the Charter Township of Oxford, Michigan, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate of all remaining fund information of the Charter Township of Oxford, Michigan, as of December 31, 2022, and the respective changes in its financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Township and to meet our ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, amount other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplemental information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Charter Township of Oxford's basic financial statements. The other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information, as identified in the table of contents is fairly stated in all material respects in relation to the basic financial statements as a whole.

Respectfully,

NShZ Mic

Management's Discussion and Analysis

As management of Charter Township of Oxford, we offer readers of Charter Township of Oxford's financial statements this narrative overview and analysis of the financial activities of Charter Township of Oxford for the fiscal year ended December 31, 2022.

Financial Highlights

- The assets of Charter Township of Oxford exceeded its liabilities at the close of the most recent fiscal year by \$48,274,959 (net position). Of this amount, \$10,780,582 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- As of the close of the current fiscal year, Charter Township of Oxford's governmental funds reported combined ending fund balances of \$14,856,788, an increase of \$1,400,046 in comparison with the prior year. Approximately 36 percent of this amount, \$5,283,560 is available for spending at the government's discretion (unrestricted fund balance).
- Charter Township of Oxford's total long-term debt increased by \$64,134, which reflects additional Oakland Macomb Interceptor Drain debt less annual debt service payments made during the current year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Charter Township of Oxford's basic financial statements. Charter Township of Oxford's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of Charter Township of Oxford's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of Charter Township of Oxford's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Charter Township of Oxford is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of Charter Township of Oxford that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of Charter Township of Oxford include general government, public safety, planning and zoning, public works, and recreation and culture. The business-type activities of Charter Township of Oxford include the water and sewer system. The government-wide financial statements can be found on pages 11-12 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Charter Township of Oxford, like other state and local governments, used fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Charter Township of Oxford can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the governmentwide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. Charter Township of Oxford maintains 13 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Police Contracting Fund, Parks and Recreation Fund, Fire Fund, and Library Fund all of which are considered to be major funds. Data from the other governmental funds are combined into aggregated presentations by fund type. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

A budgetary comparison statement has been provided for the General, Police Contracting, Parks and Recreation, Fire, and Library Funds to demonstrate compliance with the annual appropriated budget.

Proprietary funds. Charter Township of Oxford maintains two proprietary funds which are classified as an enterprise fund type. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. Charter Township of Oxford used enterprise funds to account for its water and sewer system.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer system, both of which are considered to be major funds of Charter Township of Oxford.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support Charter Township of Oxford's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. The combining statements referred to earlier in connection with the nonmajor governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 58-67 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Charter Township of Oxford, assets exceeded liabilities by \$48,274,959 at the close of the most recent fiscal year.

A significant portion of Charter Township of Oxford's net position (58 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. Charter Township of Oxford used these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although Charter Township of Oxford's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The governmental net position increased by \$1,785,938 during the current fiscal year and the business-type net position increased by \$934,728, as presented:

Business-type activities. Business-type activities increased Charter Township of Oxford's net position by \$934,728, as compared to a \$1,180,688 increase in the prior year. The water fund had an operating loss of \$489,521 in the current year, as compared to an operating loss of \$451,775 in the prior year. The sewer fund had an operating loss of \$74,552 in 2022 as compared to operating income of \$129,513 in 2021. Also, water and sewer tap fee revenues decreased by \$119,157 over the prior year.

Financial Analysis of the Government's Funds

Governmental funds. The focus of Charter Township of Oxford's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Charter Township of Oxford's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, Charter Township of Oxford's governmental funds reported combined ending fund balances of \$14,856,788, an increase of \$1,400,046 in comparison with the prior year. The unrestricted fund balance, which is the amount available for spending at the government's discretion, represents 36% of the total fund balance. The remainder of fund balance is restricted to indicate that it is not available for new spending because it has already been committed to uphold contracts or bond agreements.

The general fund is the chief operating fund of the Charter Township of Oxford. At the end of the current fiscal year, total fund balance was \$5,283,560. The fund balance of Charter Township of Oxford's general fund increased by \$1,839,756 during the current fiscal year, in comparison to a \$1,222,132 increase in the prior year. General Fund operating revenues increased \$1,201,872, which included additional state shared revenues of \$221,475 for the 2020 population adjustment and an increase of \$23,003 in interest earnings. Operating expenditures increased \$917,691 over the prior year. The General Fund also transferred \$85,000 to the Cemetery Maintenance Fund, \$24,200 to the Fire Fund, and \$56,357 to the Safety Path Fund. The Township received a total of \$2,031,365 of American Rescue Plan Act (ARPA) funds, of which \$439,082 was spent in 2022. The \$439,082 has been recorded in General Fund expenditures along with the respective revenues.

Proprietary funds. The Township's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the Water and Sewer Funds totaled \$5,382,737 at the end of the year, which is a \$934,728 increase in unrestricted net position. Water and sewer tap fees totaled \$589,134 which is a decrease of \$119,157 over the prior year. Other factors concerning the finances of this fund have already been addressed in the discussion of Charter Township of Oxford's business-type activities.

In the Sewer Fund, new Oakland-Macomb Interceptor bonds are being anticipated, and the Township Board will need to consider whether user rates or sewer debt service charges may need to be increased.

General Fund Budgetary Highlights

The differences between the beginning and final budgets represent an increase in budgeted revenues of \$894,312, which includes a \$912,960 increase for state shared revenues. Budgeted expenditures were increased \$950,486 including an increase of \$60,000 for safety path maintenance, \$126,733 for election expenditures, and \$392,000 for American Rescue Plan Act expenditures.

Capital assets. Charter Township of Oxford's investment in capital assets for its governmental and business type activities as of December 31, 2022, amounts to \$35,785,378 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system improvements, machinery and equipment, park facilities, and the water and sewer systems. The investment in fixed assets decreased by \$409,794 due to capital asset additions less annual depreciation expense.

Long-term debt. At the end of the current fiscal year, Charter Township of Oxford had total bonded debt outstanding of \$7,864,229, which consisted of \$900,000 Park General Obligation bonds, \$4,600,000 Water General Obligation bonds, and \$2,364,229 for the Oakland-Macomb Interceptor Drain Bonds. All of Charter Township of Oxford's debt represents general obligation debt backed by the full faith and credit of Charter Township of Oxford, subject to constitutional limit.

Additional information on Charter Township of Oxford's long-term debt can be found in note III. D. on pages 34-35 of this report.

Economic Factors and Next Year's Budgets and Rates

The Township anticipates a slight increase in property tax revenues based on projected increased taxable values and a slight increase in State shared revenue in 2023 based on current economic projections. The Township has adopted a balanced budget in the General Fund for fiscal year 2023 and anticipates the Township's finances to remain stable.

Requests for Information

This financial report is designed to provide a general overview of Charter Township of Oxford's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Township Supervisor, 300 Dunlap Road, Oxford, MI 48371.

CHARTER TOWNSHIP OF OXFORD Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2022

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	1,400,046
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.		
Capital Outlay		251,488
Depreciation Expense		(966,144)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long- term debt and related items.		
Principal Repayments		210,000
Decrease in Compensated Absend	ces	5,430
Change in Net Pension Liability		768,086
Change in Net Other Postemployment Benefit Liability	_	117,032
Change in net position in governmental activities	\$_	1,785,938

CHARTER TOWNSHIP OF OXFORD Notes to Financial Statements December 31, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Oxford Township became a Charter Township by resolution of the Township Board. The Township is operated under a Board of Trustees form of government and provides the following services as authorized by law: public safety (police and fire), library, recreation, public improvements, building, planning and zoning, and general administrative services.

As required by generally accepted accounting principles, these financial statements present the Charter Township of Oxford and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the Township's operations and so data from these units is combined with data of the primary government. The Oxford Public Library is a blended component unit which is included in the Township's financial statements but does issue a separate report. Separate financial statements of the Library may be obtained at Oxford Public Library, 530 Pontiac Road, Oxford, Michigan 48371. The Library has a December 31 year end.

Discretely Presented Component Unit

The Polly Ann Trailway Management Council is a discretely presented component unit and is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the Township. The Council was created for the purpose of owning or leasing, exercising right of dominion over, developing, providing, maintaining, and operating certain non-motorized public trails for recreational use within the jurisdiction of member units, Addison Township, Orion Township, Oxford Township, Village of Leonard, and Village of Oxford. The Polly Ann Trailway Management Council has a December 31 year end.

B. Jointly Governed Organizations

North Oakland Transportation Authority

The Authority provides transportation services for the following six entities, the Charter Township of Oxford, the Charter Township of Orion, the Township of Addison, the Village of Lake Orion, the Village of Leonard and the Village of Oxford. The Authority's board consists of twelve members of which the Charter Township of Oxford appoints two. For the fiscal year ended December 31, 2022, the Charter Township of Oxford provided \$67,174 to the Authority. The North Oakland Transportation Authority is not considered a part of the reporting entity of the Charter Township of Oxford. Separate financial statements of the joint venture may be obtained at North Oakland Transportation Authority, 675 S. Glaspie Street, Suite A, Oxford, Michigan 48371.

CHARTER TOWNSHIP OF OXFORD Notes to Financial Statements December 31, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct* expenses are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation – Continued

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Township.

<u>Governmental Funds</u>

The Township reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Police Contracting, Parks and Recreation, Fire, and Library Funds are special revenue funds supported by voted operating tax levies.

In addition, the Township reports on the following fund types:

- The special revenue funds account for revenue sources that are legally restricted to expenditures for specific purposes.
- The capital project fund accounts for the construction of the new township administrative building.
- The permanent fund accounts for the perpetual care endowment of the Township cemetery.

Proprietary Funds

Proprietary funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Proprietary funds include the following fund type:

Enterprise Funds are used to account for those operations that are financed and operated in a manner similar to private business or where the Township has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. The Township's enterprise funds are the Water and Sewer Funds, which are reported as major funds.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation – Continued

Fiduciary Funds

Fiduciary Funds account for assets held by the government in a trustee capacity by the Township or as an agent on behalf of others. Fiduciary funds include the custodial fund types.

Restricted Resources

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as needed.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

CHARTER TOWNSHIP OF OXFORD Notes to Financial Statements December 31, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

- E. Assets, Liabilities and Net Position or Equity
 - 1. Deposits and Investments

The Township's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. State statutes and the Township's adopted investment policy authorize the Township to invest in obligations of the U.S. Treasury, commercial paper of certain investment grades, and deposits of Michigan commercial banks.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of allowances for uncollectible accounts, which are recorded as follows:

	Accounts	Accounts
	Receivable	Receivable
	<u>Governmental</u>	Enterprise
Total	\$ 524,522	\$ 826,975
Less Allowance for Doubtful Accounts		
Net Realizable Value	<u>\$ 524,522</u>	<u>\$ 826,975</u>

3. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects

CHARTER TOWNSHIP OF OXFORD Notes to Financial Statements December 31, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

- E. Assets, Liabilities and Net Position or Equity Continued
 - 3. Capital Assets Continued

are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of capitalized value of the assets constructed.

Property, plant and equipment of the primary government, as well as the component units, is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	10-25
Equipment	5-15
Vehicles	5-20
Infrastructure	15-50

4. Compensated Absences

In accordance with contracts negotiated with the various employee groups of the Township, individual employees have vested rights upon termination of employment to receive payment for unused vacation and sick leave under formulas and conditions specified in the contracts. All sick and vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only when they have matured or come due for payment. The long-term portion of compensated absences related to the governmental funds is a liability recorded in the Statement of Net Position.

5. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the Statement of Net Position.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

- E. Assets, Liabilities and Net Position or Equity Continued
 - 5. Long-term Obligations Continued

Long-term liabilities expected to be financed from proprietary funds are reported as liabilities in those funds.

6. Fund Equity

In the fund financial statements, governmental funds report the following components of fund balance:

Nonspendable – Amounts that are not in spendable form or are legally or contractually required to be maintained intact.

Restricted – Amounts that are legally restricted by outside parties, constitutional provisions, or enabling legislation for use for a specific purpose.

Committed – Amounts that have been formally set aside by the Board for use for a specific purpose. Commitments are made and can be rescinded only via resolution of the Township Board.

Assigned – Intent to spend resources on specific purposes expressed by the Township Board.

Unassigned – This is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes within the general fund.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The Township is legally subject to the budgetary control requirements of the State of Michigan P.A. 621 of 1978 (Uniform Budgeting Act). The following is a summary of the requirements of this act:

- a. Budgets must be adopted for the General and Special Revenue Funds.
- b. Budgets must be balanced.
- c. Budgets must be amended as necessary.
- d. Public hearings must be held prior to adoption.
- e. Expenditures cannot exceed budget appropriations.
- f. Expenditures must be authorized by a budget appropriation prior to being incurred.

The Township follows these procedures in establishing the budgetary data reflected in these financial statements:

- 1. In accordance with State law, prior to December 15, the Supervisor submits to the Township Board a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and means of financing them for the upcoming year. Detail line item budgets are included for administrative control. The level of control for the detail budgets is at the departmental basis.
- 2. Public hearings are conducted in September and October to obtain taxpayer comment.
- 3. Prior to December 15, the budget is legally enacted through passage of a budget resolution (general appropriation act).
- 4. Formal budgetary integration is employed as a management control device for the General and Special Revenue Funds. Budgets for these funds are prepared and adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 5. Proprietary Fund budgets are prepared on a non-GAAP method.
- 6. Budget appropriations lapse at year end.
- 7. The Township does not employ encumbrance accounting as an extension of formal budgetary integration in the governmental funds.
- 8. Budgeted amounts are reported as originally adopted and as amended by the Township Board. The budget was amended during fiscal year 2022.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - Continued

- B. Compliance with P.A. 621 of 1978
 - 1. Deficit Fund Balance

None of the funds have a deficit fund balance as of December 31, 2022.

2. Excess of Expenditures Over Appropriations in Budgetary Funds

The budgets for the General and Special Revenue Funds are adopted at the activity level. There were no expenditures in excess of budget appropriations.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Under State law, the Township is permitted to invest in deposits with Michigan commercial banks, savings and loans and credit unions, obligations of the U.S. Treasury, and corporate bonds and commercial paper with certain investment grades. The Township's investment policy does not further limit its investment choices.

The Township's cash and investments are subject to several types of risk, which are detailed below:

Custodial Credit Risk of Bank Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits may not be recovered. Neither State law nor the Township's investment policy requires consideration of custodial credit risk. As of December 31, 2022, the Township's book balance of its deposits was \$25,570,765. The bank balance was \$26,831,597 of which \$650,179 was FDIC insured.

The Township believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Township evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

III. DETAILED NOTES ON ALL FUNDS - Continued

A. Deposits and Investments – Continued

At December 31, 2022, the carrying amount and bank balance of the component unit of the Charter Township of Oxford, the Polly Ann Trailway Management Council, was \$40,592, all of which is FDIC insured.

Interest Rate Risk

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The Township's investment policy does not restrict investment maturities, other than commercial paper which can only be purchased with a 270-day maturity. At year end, the Township had the following investments:

		Weighted Average			
	Fair Value	<u> </u>			
Michigan CLASS Fund	\$ 23,618,381	74 days			
Oakland County Investment Pool	177,906	545 days			

<u>Credit Risk</u>

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The Township's investment policy does not further limit its investment choices. As of year end, the credit quality ratings of debt securities are as follows:

	Fair Value	<u>Rating</u>
Michigan CLASS Fund	\$ 23,618,381	AAAm
Oakland County Investment Pool	177,906	N/A

The Township Treasurer continually monitors the Township's investments and follows the policy of safeguarding the assets first, then liquidity, and finally yield.

Concentration of Credit Risk

The Township places no limit on the amount it may invest in any one issuer. Approximately 88 percent of the Charter Township of Oxford's cash and investments are in the Michigan CLASS Fund Investment Pool. The fair value position in the pool is not the same as the value of the pool shares, since the pool does not meet the requirements under GASB 79 to report its value for financial reporting purposes at amortized costs.

III. DETAILED NOTES ON ALL FUNDS - Continued

B. Capital Assets

Capital asset activity for the year ended December 31, 2022 was as follows:

Governmental Activities:	Beginning Balance	Additions	Deletions	Ending Balance
Capital Assets, not depreciated:

- E. Deferred Inflows of Resources
 - Governmental funds report unearned revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. The deferred inflows in the governmental activities represents property taxes levied on December 1, 2021, but recognized revenue in the year ending December 31, 2022, when the proceeds of the levy are budgeted and available for financing operations. At the end of the current fiscal year, the various components of deferred inflows of resources are as follows:

Property taxes levied for 2023 \$<u>11,312,846</u>

2. In November 2014, the Township issued \$7,755,000 of limited tax general obligation refunding bonds, with a bond premium of \$230,000 which has been recorded as a deferred inflow of resources and is being amortized over the remaining life of the bond. The balance of unamortized bond premium at December 31, 2022 is \$115,000.

III. DETAILED NOTES ON ALL FUNDS - Continued

F. Fund Balance Classifications

A detailed description of fund balance classifications (for all governmental fund types) at December 31, 2022, is presented below:

/1 / -		1 017 20227 10				Other

III. DETAILED NOTES ON ALL FUNDS - Continued

G. Property Taxes

Property taxes are assessed as of each December 31. The Township tax levy is billed on December 1 of the following year, and payable through February. Taxes are considered delinquent on March 1, at which time the applicable property is subject to lien and penalty and interest is assessed. The maximum authorized operating levies for the Township are detailed below for the 2021 tax roll:

		Rate
Purpose	<u>Authorization</u>	<u>Levied</u>
Operating	State Law	.8944
Police Services	Voter Approved	3.8461
Library	Voter Approved	1.3111
Parks and Rec.	Voter Approved	.9809
Fire	Voter Approved	4.4500
Parks Debt	Voter Approved	.2300

IV. OTHER INFORMATION

A. Defined Benefit Plan – Fire Department

Plan Description

The Township contributes to the Municipal Employees' Retirement System of Michigan (MERS), which is an agent multiple-employer defined benefit pension plan that covers all full time union employees of the Township fire department and the Fire Chief. MERS was established by the Michigan Legislature in 1945 and is administered by a nine member Retirement Board. MERS issues a publicly available financial report that includes financial statements and required supplementary information for the system. That report may be obtained at *mersofmich.com*.

Benefits Provided

The Plan provides retirement, disability, and death benefits to plan members and their beneficiaries, as established by Public Act 427 of 1984, as amended. The Plan covers all full-time union employees at the Township Fire Department as well as the Fire Chief. Benefits are calculated as 2.5 percent of the employee's five-year final average compensation times the employee's years of service with a maximum of 80 percent of final average compensation. Normal retirement age is 60. Deferred retirement benefits vest after 10 years of credited service but are not paid until the date retirement would have occurred if the member had remained an employee.

Benefit terms, within the guidelines established by MERS, are generally established and amended by authority of the Township Board, generally after negotiations of these terms with the affected union.

IV. OTHER INFORMATION - Continued

A. Defined Benefit Plan – Fire Department – Continued

Employees Covered by Benefit Terms

At the December 31, 2021 measurement date, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefits	16
Inactive plan members entitled to but not yet receiving benefits	2
Active Plan Members	22
Total Employees covered by MERS	<u>40</u>

Contributions

The State of Michigan Constitution, Article 9, Section 24, requires that financial benefits arising on account of employee services rendered in each year be funded during that year. Accordingly, MERS retains an independent actuary to determine the annual contribution.

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by the MERS retirement board. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The employer may establish contribution rates to be paid by its covered employees.

For the year ended December 31, 2022, the average active employee contribution rate was 2.5 percent of gross wages for all fire employees.

Net Pension Liability

The net pension liability reported at December 31, 2022 was determined using a measure of the total pension liability and the plan net position as of December 31, 2021. The December 31, 2021 total pension liability was determined by an actuarial valuation performed as of that date.

IV. OTHER INFORMATION - Continued

A. Defined Benefit Plan – Fire Department – Continued

Changes in the net pension liability during the measurement year were as follows:

	_	Increase (Decrease)						
		Total Pension		Plan Net		Net Pension		
Changes in Net Pension Liability		Liability	_	Position	_	Liability

IV. OTHER INFORMATION - Continued

A. Defined Benefit Plan – Fire Department – Continued

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2022, the Township reported deferred outflows of resources related to pensions from the following sources:

		Deferred
		Outflows of
Source		Resources
Net difference between projected and actual		
earnings on pension plan investments	\$	461,089
Differences between expected and actual experience		56,416
Differences in Assumptions		509,508
Employer contributions to the plan subsequent		
to the measurement date	_	568,612
Total	\$	1,595,625

Amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows. These amounts are exclusive of the employer contributions to the plan made subsequent to the measurement date (\$568,612), which will impact the net pension liability in fiscal year 2023, rather than pension expense.

Years Ending		
December 31	_	Amount
2023	\$	273,753
2024		340,343
2025		240,052
2026		125,388
2027		47,477

Actuarial Assumptions

The total pension liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.00%
Investment rate of return	7.00%

IV. OTHER INFORMATION - Continued

A. Defined Benefit Plan – Fire Department – Continued

Mortality rates were based on the RP=2014 Healthy Annuitant Mortality Tables of a 50 percent male and 50 percent female blend with rates multiplied by 105%. For disabled retirees, the 50% Male and 50% Female blend of the RP-2014 Disabled Retiree Mortality Tables.

The actuarial assumptions used in the December 31, 2021 valuation were based on the results of the most recent actuarial experience study from 2009-2013.

Discount Rate

The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumes that employee contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate.

Projected Cash Flows

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a model in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return as of December 31, 2021, the measurement date, for each major asset class are summarized in the following table:

IV. OTHER INFORMATION - Continued

A. Defined Benefit Plan – Fire Department – Continued

		Long-term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Global Equity	60%	4.50%
Global Fixed Income	20%	2.00%
Private Investments	20%	7.00%

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Township, calculated using the discount rate of 7.25 percent, as well as what the Township's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

				Current		
	1	% Decrease	[Discount Rate		1% Increase
		(6.25%)	_	(7.25%)	_	(8.25%)
Net Pension Liability	\$	2,072,402	\$_	973,929	\$_	61,071

Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued MERS financial report. For the purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pension and pension expense, information about the plan's fiduciary net position and addition to/deduction from fiduciary net position have been determined on the same basis as they are reported by the plan. The plan uses the economic resources measurement focus and the full accrual basis of accounting. Investments are stated at fair value. Contribution revenue is recorded as contributions are due pursuant to legal requirements. Benefit payments and refunds of employee contributions are recognized as expense when due and payable in accordance with the benefit terms.

IV. OTHER INFORMATION - Continued

B. Defined Contribution Plans

The Township maintains three separate defined contribution pension plans for its elected officials and other qualified employees of the Township, Parks and Recreation, and Library. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees of the different plans are eligible to participate at varying dates of employment. The plans were established by Township ordinance, which may be revised by amendment of the ordinance. Additional information for each plan follows:

C. Other Postemployment Benefits

Plan Description

The Township provides post-employment healthcare benefits to eligible employees upon retirement in accordance with contractual agreements. These benefits are provided by contractual agreement and are paid by the General Fund. Currently, 2 individuals are receiving benefits. At the fund level, the expense is recognized by the Township as the payments to the employees are made.

Benefits Provided

The Township provides healthcare, including prescription drug benefits for retirees and their spouses. Benefits are provided by a third-party insurer.

Employees Covered by Benefit Terms

At the December 31, 2022 valuation date, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefits	2
Inactive plan members entitled to but not yet receiving benefits	-
Active Plan Members	
Total	2

<u>Contributions</u>

Active service members are not required to make contributions to the plan. The Township has no obligation to make contributions in advance but are being financed on a "pay-as-you-go" basis.

Summary of Significant Accounting Policies

For the purpose of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB (if applicable), and OPEB expenses, have been determined on the same basis as they are reported for the Township. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

Changes in Net OPEB Liability

The components of the change in the net OPEB liability are summarized as follows:

		In	cre	ase (Decrease)
		Total OPEB		Plan Net	Net OPEB
Changes in Net OPEB Liability		Liability	_	Position	Liability
Balance at January 1, 2022	\$	430,992	\$_	2,985 \$	428,007
	_				
Service Cost		-		-	-
Interest Cost		9,538		-	9,538
Difference between expected and					
actual experience		(61)		-	(61)
Change in Assumptions		(112,756)		-	(112,756)
Net Investment Income		-		(370)	370
Employer Contributions		-		14,165	(14,165)
Benefit Payments		(14,165)		(14,165)	-
Administrative Expenses	_	-	_	(42)	42
Net Changes		(117,444)	-	(412)	(117,032)
Balance at December 31, 2022	\$	313,548	\$_	2,573 \$	310,975

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of December 31, 2022. The following actuarial assumptions were applied:

Entry-age normal
4.31%
7.45%
Participation limited to 3 retirees (and one spouse)
with grandfathered coverage.
Two retirees pay 50% of the premium cost.
Public General and Public Safety 2010 Healthy Retiree tables
Pre-65: 8.5% initially grading down .25% per year to 4.50% Post-65: 7.0% grading down .25% per year to 4.50%

Discount Rate

The discount rate used to measure the total OPEB liability was 4.31% based on the average effective rate consisting of long term return on assets and 20 year Aa Municipal Bond Rate.

IV. OTHER INFORMATION - Continued

C. Other Postemployment Benefits - Continued

Investment Rate of Return

The long-term expected rate of return on OPEB plan investments was determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Best estimates of arithmetic real rates of return as of the December 31, 2022 measurement date for each major asset class included in the OPEB plan's target asset allocation are summarized in the following table:

		Long-term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Global Equity	64.0%	9.00%
Global Fixed Income	26.0%	4.70%
Private Investments	5.0%	6.40%
Diversifying Strategies	5.0%	3.00%

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Township, calculated using the discount rate of 4.31 percent, as well as what the Township's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

			Current		
	 1% Decrease	_	Discount Rate	_	1% Increase
Net OPEB Liability	\$ 352,838	\$_	310,975	\$_	276,774

<u>Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate</u> The following presents the net OPEB liability of the Township, as well as what the Township's net OPEB liability would be if it were calculated using healthcare trends rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

			Healthcare Cost	
	 1% Decrease	_	Trend Rate	 1% Increase
Net OPEB Liability	\$ 273,964	\$_	310,975	\$ 355,586

IV. OTHER INFORMATION - Continued

D. Risk Management

The Township is a member of the Michigan Township Participating Plan for its property and casualty insurance coverage and maintains commercial insurance coverage for workers compensation, and accidental death, dismemberment and disability liabilities. The Township believes such coverage is sufficient to preclude any significant uninsured losses to the Township. Settled claims have not exceeded this coverage in any of the past three fiscal years.

E. Restatement

The Township's net other post-employment benefit (OPEB) liability opening balance has been restated to reflect the most recent actuarial study available to the Township. The net OPEB liability as of December 31, 2021 was previously calculated using the December 31, 2020 actuarial study. These amounts have been restated to reflect the December 31, 2021 actuarial report as follows:

		Total OPEB		Plan Net	Net OPEB
	_	Liability	_	Position	 Liability
Balance at Dec. 31, 2021 previously reported	\$	505,374	\$	2,705	\$ 502,669
Restatement		(74,382)	_	280	 (74,662)
Balance at Dec. 31, 2021 as restated	\$	430,992	\$	2,985	\$ 428,007

F. Upcoming Accounting Pronouncements

The Governmental Accounting Standards Board has issued Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITAs)*, which provides accounting and financial reporting for SBITAs by governments. This statement requires a government to recognize a subscription liability and an intangible right-to-use subscription asset for SBITAs. The Township is currently evaluating the impact this standard will have on the financial statements, if any, when adopted. This statement is effective for the Township's financial statements beginning with the fiscal year ending December 31, 2023.

The Governmental Accounting Standards Board has issued Statement No. 101, *Compensated Absences*, which updates the recognition and measurement guidance for compensated absences as well as the disclosure requirements. This statement requires that the compensated absence liability be recognized for leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means. This statement is effective for the Township's financial statements beginning with the fiscal year ending December 31, 2024. REQUIRED SUPPLEMENTARY INFORMATION
